

## PENTAIR SUPERFLO PUMP

### THE STRONG SILENT TYPE.

Affordable variable speed technology comes to standard pools for energy cost savings of up to 80%

NEW SuperFlo VS pumps slash energy costs by up to 80%\*, compared to conventional pool pumps. They come to you from the company that launched variable speed technology years ahead of every other pool pump manufacturer. With premium features like a 24-hour real-time clock and an intuitive interface that displays watts and RPMs, they're easy to program and operate. With the SuperFlo VS pump, you don't need to spend a fortune to enjoy big savings on your Hydro Quebec bill, it's affordable for new and standard pump replacement applications. No other company can match our proven, in-field performance and reliability, so you can count on years of long, dependable service. No wonder we outsell all other variable speed pumps.

- Only variable speed pump on the market today with 115/208-230V and 50/60 Hz single phase capability. Operating nominal voltage range is 110V thru 230V.
- Ideal for standard pools requiring up to 1.5 hp pump.
- Three operating speed settings plus override capability.
- Direct... and superior drop-in replacement for the Hayward® SuperPump®.
- An Eco Select® Brand product: one of Pentair's "greenest" and most efficient choices.
